

# CASAGliAMICI

## 2023 RED BLEND

*Mendoza Argentina*

---

The handling of our vineyards combines tradition and new technologies and genetics of ancient and modern plants allow us to obtain a balance of grapes.

Deep, sandy soils with limited retention and irrigated with groundwater support the vineyards, which are environmentally friendly managed.

The soil is helped to be conserved with organic amendments, green cover and native vegetation.

Pruning is mixed” Guyot and Bilateral Cordon”, with a maximum sun exposure and controlled canopy.

Production yield averages 100 qq/ha.

Harvest time is characterized each year, aiming to practice it early and thus obtain freshness and lots of fruit.

---

### TASTING NOTES

It's blend of Bonarda and Malbec grapes offers an intense red color and violet, black and blue hues.

On the nose, it has a predominance of ripe red fruit and some black fruit.

On the palate, it has soft, fresh, fruity deep and structured tannins.

---

### WINE PAIRING

It accompanies all kind of meats, cold cuts and goat cheese.
